QSL INFO AND NEWS.....

- A message from Lech, LA7MFA, states the following: "It seems like there is a lot of different addresses of mine out there. I guess I have been moving around too much lately: QSL for **KH8/KK6HC** goes via LA7MFA: Lech Slawomir Tomczak, Froeyas vei 61, 3472 Boedalen, Norway. All bureau QSLs will be answered. But I need some time to make my special color QSL card. I have been operating for 24 hours last Saturday/Sunday from Leone on Tutuila, Am. Samoa using my American callsign **KK6HC**. I was using IC751A with just 100W into a Butternut HF9VX antenna. I made total 1200 QSOs on 40, 30, 20, 15, 12 and 10m. The condx were very poor as my QTH was on the southern part of the island behind a huge mountain. I enjoyed this very first own radio expedition. Thanks to all who came to say hello. I was trying to make any QSO from the boat on the way back from ZK3CW/T31T expedition but it seems that LA7MFA/MM was not interesting enough. Nobody would bother to answer my CQ call! I will put a log search on my WEB page <http://www.qsl.net/la7mfa/> shortly."
- Jurek, SP2BIK, reports that their operation from the Polish Lighthouse in Krynica Morska during the "International Lighthouses Weekend" they operated on CW, SSB, FM

He states that foreign letter asre being opened, and it is better to send IRCs instead of "Green Stamps".
- **RN PREFIX IS RUSSIAN.** Igor, **RN3ZQ**, reports that many outgoing QSL Mail from the USA for the Russian radio amateurs (with prefixes RN) are being sent to the UN QSL Bureau (Kazakhstan). This is wrong, RN prefixes are for RUSSIA.
